

Miles Bauer is a cutting edge agency born from the need to fill the most essential service gaps which are notoriously lacking within the industry. Our agency is run by a talented group of professionals who cumulatively have spent a combined 46 years working within the industry worldwide. We created a brand new type of agency, offering unparalleled customer service, meticulous attention to detail, genuine care and support for our talent, and a firm commitment to improve society and the environment through becoming the first paperless "green" agency, as well as giving back part of all of our proceeds to the charity of our talents' choice.

Our team converged with the vision of creating an agency focused on cultivating and retaining long-term working relationships with clients and talent alike. From experience, we believe the only way to successfully do this is by working closely clients and talent and truly understanding your needs. We carefully hand-pick and manage our talent instead of having hundreds of models on our board who do not communicate with us regularly. We strongly encourage cross-promoting talent in other areas of their interest, choosing to empower rather than pigeonholing them into only one area. We set out to exceed your expectations as clients, ensuring that you always have access to the best talent for all of your projects.
